Important Lane Closures for the week of May 15-21

I-495 Closures :

The construction of bridges for rails over I-495 is causing periodic overnight closures of one to three lanes of the beltway through the end of the year. The two right lanes of northbound I-495 will be closed overnight, near Route 123, as follows: Sunday, May 15, from 10 p.m. to 5 a.m.; Monday, May 20 – Thursday, May 19, between the hours of 11 p.m. and 5 a.m.; and Friday, May 20, from 10:30 p.m. to 7 a.m. Police will be onsite.

Route 66 Closures:

Expect daytime and nighttime lane closures on eastbound and westbound Interstate 66, particularly in the vicinity of Great Falls Street and the Route 267 overpass.

DIAAH Closures:

Please remain alert for daytime lane closures on both the eastbound and westbound Dulles International Airport Access Highway (DIAAH) throughout the week.

Dulles Toll Road Exit to Route 7 Closed Nights:

The guideway that will carry future Metro tracks between Route 7 and the DIAAH median requires construction of a concrete structure that will straddle two piers over the DIAAH. In order to accomplish the work, the ramp from the eastbound Dulles Toll Road (Route 267) to westbound Leesburg Pike (Route 7) will be closed overnight as follows: Tuesday, May 17 – Thursday, May 19, from 10 p.m. to 5 a.m.; Friday, May 20, from 11 p.m. to 9 a.m.; and Saturday, from 11 p.m. to 9 a.m.

In addition, there will be daytime lane closures of both eastbound and westbound lanes along the Dulles Toll Road through the week.

REMINDER: 24/7 Operations for Construction at Orange Line Tie-in this weekend:

Metro's Orange Line trains will be single tracking between the East Falls Church and West Falls Church Metrorail stations throughout the weekend of May 14-15 because of Dulles Corridor Metrorail Project construction. **Metrorail service will not be disrupted.** This work is related to the future tie-in of the

extension to the existing Orange Line. Work will be taking place around the clock. Tie-in work requires several crews to work concurrently within a short window of time. All work is weather dependent and subject to change. In case of inclement weather during these scheduled outages, crew will work the weekend of May 21-22.

Eastbound Tysons Boulevard Closures between Galleria Drive and Chain Bridge Road (Route 123) to Continue Next Week:

The eastbound lanes of Tysons Boulevard will be closed near Galleria Drive to Route 123 (Chain Bridge Road) from 11 p.m. to 5 a.m. Monday, May 16 through Saturday, May 21, for pier and station work.

Thru traffic on eastbound Tysons Boulevard toward Route 123 will be detoured as follows:

- Left on Galleria Drive/Westpark Drive
- Left on Westbranch Drive
- Right on Tysons Boulevard
- Left on International Drive to access Route 123

An alternate route for hotels and businesses along Tysons Boulevard would be to turn left on to westbound Tysons Boulevard, then left on International Drive.

REMINDER: Flagging Operation on Magarity Road Continues:

Beginning on or about Monday, May 16, the eastbound lane of Magarity Road will be reduced to one lane from Olney Road to the Route 267 overpass. Dulles Metrorail crews will be restoring the curb line and gutter and installing a new storm drainage pipe.

Magarity Road is a popular thoroughfare for travelers between Route 7 and McLean. This work is related to the project's ongoing construction of a traction power substation on the southeast corner of Magarity and Olney roads.

Private entrances and driveways will be accessible at all times. Signage will be installed warning drivers that the flaggers and one-lane traffic are ahead. Drivers are urged to use extreme caution when traveling through this intersection.

Leesburg Pike (Route 7) Lane Closures:

Waterline installation continues overnights at Leesburg Pike (Route 7)/Spring Hill Road intersection in Tysons Corner. Curb and gutter work will also cause overnight lane closures on westbound Leesburg Pike. Police will be on site to assist in directing traffic during the closures.

Details for all approved roadway activities affected by work on the Dulles Corridor Metrorail Project during the week of May 15-21 continues on the following pages.
