## **RESCHEDULED: Lane Shifts of Westbound Route 7 from Tyco Road to the Dulles Toll Road Thursday Night**

A slight shift of the westbound lanes of Leesburg Pike (Route 7) between Tyco Road and the Dulles Toll Road (Route 267) will be implemented overnight Thursday, May 26, between 9:30 p.m. and 5 a.m. Friday.

Crews are finishing the necessary paving for this shift as weather allows this week. Final paving and striping are rescheduled for Thursday night.

The lanes will be shifted outward by about a dozen feet to create more room for construction in the median. This traffic pattern is expected to be in place for approximately one year.

Inclement weather last week forced the rescheduling of this work. In case of bad weather Thursday night, the work will be delayed until after the Memorial Day weekend.

The lanes will be shifted outward by about a dozen feet to create more room for rail construction in the median of Route 7. This traffic pattern is expected to be in place for approximately one year.

*For construction-related emergencies including noise, please use the project **HOTLINE** at **877-585-6789**. For further information about the project, please visit our project website at [www.dullesmetro.com](http://www.dullesmetro.com) or call 703-572-0506.*
