Important Lane Closures for September 25-October 1

Utility Work, Lane Closures Planned along Eastbound Dulles Connector Road (Route 66) near I-66 Junction Sept. 29-30

More utility work along the Dulles Connector Road (Route 267) is planned for daytime weekdays next week, along with night work on Thursday, Sept. 29 and Friday, Sept. 30.

The following lane closures will be in place during this work:

- Monday, Sept. 26 – Thursday, Sept. 29, 9:30 a.m. to 3:30 p.m.
- Thursday, Sept. 29 (*night*) – Left thru lane closed for a 2,000-foot stretch west of the Idylwood Road bridge, 9:30 p.m. to 5 a.m.
- Friday, Sept. 30, 9:30 a.m. to noon
- Friday, Sept. 30 (*night*) – Right thru lane closed from the Idylwood Road overpass to the bus ramp exit, 10 p.m. to 7 a.m. **Note for bus traffic:** The bus lane will be closed to allow trench work across the bus lane along this stretch of the Connector Road. Buses will be shifted into the main traffic lanes prior to the work area, around the work zone, then back into the bus lane to allow them to exit into the West Falls Church transit station.

Police will be onsite for the lane closings for safety during nighttime work hours.

Noise warning: Every effort will be made to minimize the noise associated with this work during the overnight hours. **However, some activity is extremely dangerous and may require the use of backup alarms to ensure workers' safety.**

Day, Night Lane Closures on I-66 at Dulles Connector Road (Route 267)

The left lane of both westbound and eastbound I-66 will continue to be closed Mondays through Thursday, 9:30 a.m. to 3:30 p.m., and Fridays, 9:30 a.m. to noon, from the Dulles Connector Road (Route 267) split to the Great Falls Street overpass. In addition, the eastbound left lane also will be closed from 9:30 p.m. to 5 a.m. weeknights, and 9:30 p.m. to 9 a.m. overnight Friday.

These lanes are closed to allow for the continuing retaining wall and other concrete work at that flyover.

Station Construction, Utility Work, Paving to Cause Overnight Closures along Route 7 at Spring Hill, Westpark/Gosnell Intersections

Construction of the future Tysons West Station in the median of Leesburg Pike (Route 7) between Spring Hill Road and Tyco Road/Westwood Center Drive is ramping up. Overnight crews will be performing overhead bridge work in and near the station, which will require the closure of part of the intersection.

In addition, crews will continue the installation of a major water main at the same intersection. Motorists will be directed to detour using alternate cross streets along Route 7. Police will be onsite for motorist safety during the overnight hours.

Paving activities also are scheduled in the overnight hours next week. **Noise warning:** Every effort will be made to minimize the noise associated with this work. **However, paving is an extremely dangerous activity and will require the full use of backup alarms to ensure workers' safety.**
