Overnight Lane/Ramp Closures at Multiple Tysons Corner Interchanges Tonight, Jan. 10

Full Closure of Northbound Route 123, Exit Ramp at Dulles Connector Road (Route 267)

All lanes of **northbound** Route 123 (Dolley Madison Boulevard) will be closed from 11 p.m. to 5 a.m. between Anderson Road and Great Falls Street for overhead bridge construction by the Dulles Corridor Metrorail Project.

Traffic will be detoured by turning right on Anderson Road, left on [Old] Chain Bridge Road, then left on Great Falls Street to access northbound Route 123.

In addition, the **exit ramp** from the eastbound Dulles Connector Road (Route 267) to northbound Route 123 will be closed from 9:30 p.m. to 5 a.m. To access northbound Route 123, drivers will be directed to use the exit to southbound Route 123 instead, go straight on to Anderson Road, then follow the detour listed above.

Bridge Construction in Median of Leesburg Pike (Route 7) to Close Tyco Road/Westwood Center Drive Intersection

Dulles Corridor Metrorail Project construction of the bridge over the intersection of Route 7 at Tyco Road/Westwood Center Drive is under way, and requires overnight closures of the middle of that intersection between 11 p.m. and 5 a.m. tonight.

Thru traffic on eastbound and westbound Route 7 **will not** be affected. However, turns from eastbound Route 7 on to northbound Tyco Road, as well as turns from westbound Route 7 to southbound Westwood Center Drive, **will not** be permitted.

Here is how the detours will work:

- Southbound Tyco Road thru traffic **and** motorists wanting to turn left on to eastbound Leesburg Pike will need to turn right on to westbound Leesburg Pike, then U-turn at Jarrett Valley Drive, and continue on eastbound Leesburg Pike to access Westwood Center Drive. *As a courtesy, please do not enter the neighborhood or use private property to turn around.*

- Northbound Westwood Center Drive thru traffic **and** motorists wanting to turn left on to westbound Leesburg Pike will need to turn right on to eastbound Leesburg Pike, U-turn at Spring Hill Road, and continue on westbound Route 7 to access Tyco Road.

After completing work at this intersection, the crane/truss will continue to move west toward the Dulles Toll Road (Route 267) in the next couple of months.

Note: The previously announced closures of the intersection of Spring Hill Road and Route 7 have been cancelled.

Westpark Drive/Gosnell Road Intersection Closures Continue

Bridge crews also will work on completing the bridge construction over the Westpark Drive/Gosnell Road and Route 7 intersection tonight. For safety reasons, thru traffic on Westpark/Gosnell **will not** be allowed, and will be detoured by using Route 7:

- Southbound Westpark Drive thru traffic **and** motorists wanting to turn left on to eastbound Leesburg Pike will need to turn right on to westbound Leesburg Pike, then U-turn at Spring Hill Road, and continue on eastbound Leesburg Pike towards Gosnell Road.
- Northbound Gosnell Road thru traffic **and** motorists wanting to turn left on to westbound Leesburg Pike will need to turn right on to eastbound Leesburg Pike, pass under Route 123, turn left on International Drive, left on Chain Bridge Road (Route 123), then take the exit ramp to Route 7 to turn right on Westpark Drive.

Right Lane of Southbound Route 123, Ramp to Northbound I-495 To Be Closed

Southbound Route 123 in Tysons Corner will be closed between Capital One Drive and the east side of I-495 from 9 p.m. to 5 a.m. tonight for overhead bridge construction.

In addition, the on-ramp from southbound Route 123 to northbound I-495 also will be closed on those nights from 9:30 p.m. to 5 a.m. To access I-495 North, traffic will be detoured to continue on southbound Route 123, right on International Drive, right on Galleria Drive, right on Tysons Boulevard, then left on to northbound Route 123 to the **second** exit on to northbound I-495.

Motorists should stay alert, use extreme caution, and be prepared to allow extra time or alter their travel along these roads.

A 24/7 emergency hotline is available for construction-related issues: 877-585-6789. For general project information: www.dullesmetro.com or 703-572-0506.
