REMINDER: Traffic Patterns Have Changed on Route 7

Due to upcoming construction of a new Metrorail station as part of the Dulles Corridor Metrorail Project, the median of Route 7 at intersection of Marshall's Drive/Frontage Road has been closed.

Traffic exiting Marshall's Drive and Frontage Road on to Route 7 are only allowed to turn right at these intersections.

- **Drivers may not turn from Marshall's Drive to westbound Route 7, nor from Frontage Road to Eastbound Route 7.**
- **Additionally, drivers may not cross Route 7 from Marshall's Drive to Frontage Road, or from Frontage Road to Marshall's Drive.**

These closures are permanent. Tysons Central 7 station construction will finish in 2013.

In addition, the ramp that connects southbound Route 123 to Route 7 **is open to westbound Route 7 traffic only.** Traffic is only allowed to turn right at this intersection. **This new pattern will be in effect for approximately three years.** Traffic may not access eastbound Route 7 from the ramp.

All drivers wishing to travel eastbound on Route 7 can access Route 7 by turning left from southbound Route 123 on to southbound International Drive.

Please see the map on the reverse (page 2 for e-mail recipients) for your reference.

If you have any project-related construction emergencies, please call the Dulles Corridor Metrorail Project Hotline at 877-585-6789. For further information about the project, please visit our project website www.dullesmetro.com or call 703-572-0506.
