Important Lane Closures Jan. 4 – 8, 2010

Holiday Work Schedule

There will be no lane closures scheduled from noon Thursday, Dec. 31 (New Year's Eve) until noon Monday, Jan. 4, in observance of the New Year's holiday.

Interstate 66 Night Work

The following work will occur overnights this week along eastbound I-66 from just west of the Dulles Connector Road (Route 267) split to Great Falls Street:

- The left lane will be closed from 9:30 p.m. to 5:00 a.m. Monday through Thursday, and from 10:00 p.m. to 9:00 a.m. Friday. Crews will be performing barrier placements, excavation, and stone hauling, grading and placement.
- On Friday night, crews will close the right two lanes to conduct a slight lane shift. Police will be on site for motorist safety at all times.

Work at Future Wiehle Avenue Station

Beginning Monday, January 4, the left thru lane of the westbound Dulles International Airport Access Highway (DIAAH) will close so construction crews can install caissons for the future Wiehle Avenue Metro station. Caissons are concrete shafts placed underground that serve as pier foundations to support at-grade and aerial track. This work is scheduled to take place Mondays through Saturdays between 8:00 a.m. and 2:00 p.m., and is expected to last approximately one month.

Intermittent lane closures of both the DIAAH and the Dulles Toll Road (Route 267) can also be expected between Hunter Mill Road and Wiehle for concrete barrier installations.
