Important Lane Closures June 14-18, 2010

Eastbound Dulles Airport Road shift near Wiehle Avenue tonight, June 11

Construction on the future Wiehle Avenue Metro station is causing a shift in the lanes of the Dulles International Airport Access Highway (DIAAH) starting tonight.

The eastbound lanes of the DIAAH will shift beginning overnight Friday, June 11.

This right shift for eastbound traffic will start approximately $\frac{3}{4}$ -mile before the Wiehle Avenue overpass, and will taper back to the left after the work zone.

Crews will perform the first half of the lane shift on Friday, and are expected to complete the shift next Friday night, June 18. Lanes of the westbound DIAAH around the same work zone are expected to shift on or about July 1.

Four ramp closures planned in Tysons Corner

Eastbound Dulles Connector Road/Dulles Toll (Route 267) to Northbound Dolley Madison Boulevard (Route 123) to close overnight June 14-June 18

The exit ramp from the eastbound Dulles Connector Road (Route 267) to northbound Dolley Madison Boulevard (Route 123) will close overnight next week, June 14 through June 18.

The closing is necessary for the moving of large cranes and other crews can safely move cranes and other equipment in this area.

Traffic will be directed to use the exit to southbound Route 123 instead, and then turn left at the bottom of the ramp to access the northbound lanes toward McLean.

Route 123 ramp to Eastbound (Route 7) to shut down Friday night, June 18

Southbound traffic using Route 123 from the Tysons Corner and McLean areas to access eastbound Route 7 will find the ramp from Route 123 to Route 7 closed on Friday night, June 18 because the ramp is being repaved between 11 p.m. and 5 a.m.

Traffic will be detoured to run left on International Drive to left on Route 7.

Ramp from eastbound Route 7 to eastbound Dulles Toll Road (Route 267) closing overnight June 17, 18

The entrance ramp from eastbound Leesburg Pike (Route 7) to the eastbound Dulles Toll Road (Route 267) at the western edge of Tysons Corner will close overnight Thursday, June 17, and Friday, June 18, for paving operations. Traffic will be directed to follow eastbound Leesburg Pike (Route 7), turn left on Spring Hill Road, then a slight left to access the Toll Road.

Eastbound Leesburg Pike (Route 7) to south bound Chain Bridge Road (Route 123) closing June 18 for paving

Traffic using east bound Route 7 in Tysons Corner on Friday night, June 18, will not be able to use the ramp from Route 7 to southbound Route 123 because of paving operations between 11 p.m. and 5 a.m.

There are several options to drivers but the VDOT recommended detour is for drivers to continue east on Route 7 to left on International Drive at the International Drive/Gallows Road intersection to a left turn on to Route 123.

Pile driving continues as Dulles rail work disrupts Metro service between East and West Falls Church Stations this weekend

This weekend June 12 and 13, Dulles Corridor Metrorail Project crews will be working adjacent to the Orange Line tracks in the median of I-66 to perform critical tie-in work where the future Metro line will split off the Orange Line.

This requires an outage of the Orange Line between East and West Falls Church Metro Stations.

For a full description of the outage and bus schedules, visit www.metroopensdoors.com.

REMINDER: Magarity Road Scheduled to Close Over Several Nights

Drivers who use Magarity Road in the McLean/Falls Church/Tysons area might experience significant delays some weeknights through the week of June 14 when the road may be closed between Olney Road and Great Falls Street between 9 p.m. and 6 a.m., weather permitting.

The closing is necessary for safety reasons while decking, concrete and additional superstructure is installed on a new bridge that will carry tracks for the Dulles Corridor Metrorail Project in the median of the Dulles Connector Road across Magarity Road.

Drivers are encouraged to detour by using Anderson Road, Chain Bridge Road and Great Falls Street.
