## **Important Lane Closures May 10 - 14, 2010**

### **Southbound Route 123 Ramp to Southbound I-495 Closing at Night May 10-14**

The entrance ramp from southbound Route 123 to the southbound I-495 Capital Beltway (Outer Loop) will close between 11 p.m. and 5 a.m. on Monday through Wednesday nights, May 10-14. Crews will be installing a large reinforced iron cage for pier construction in that area.

Drivers will detour by:

- Continuing south on Route 123
- Right on International Drive
- Right on Galleria Drive
- Right on Tysons Boulevard
- A short left on northbound Route 123 to access the southbound Beltway ramp.

This detour will not conflict with the Tysons Boulevard detour listed above; once implemented, the eastbound lanes of Tysons Boulevard will be open between Galleria Drive and Route 123.

### **Ramp from Leesburg Pike (Route 7) to Southbound Route 123 Closing Monday Night, May 10**

The on-ramp from eastbound Leesburg Pike (Route 7) to southbound Chain Bridge Road (Route 123) will close overnight Monday, May 10, for crews to place barriers.

Traffic can access southbound Route 123 by using International Drive via Route 7, before Tysons Corner Center.

### **Work Continues in Multiple Areas along Route 7 in Preparation for Station Construction**

Construction crews will be working at many locations along Route 7 from Route 123 to the Dulles Toll Road interchange in preparation for the significant lane shifts that are expected before Memorial Day for construction of two rail stations, Tysons Central 7, near SAIC and Marshalls, and Tysons West, between Spring Hill and Tyco Roads.

The first road shift will be for eastbound Leesburg Pike (Route 7) between Gosnell Road and Chain Bridge Road (Route 123).

**Night Closure of Eastbound Dulles International Airport Access Highway Rescheduled for Final Week in May**

Last week, it was announced that the motorists using the eastbound Dulles International Airport Access Highway (DIAAH, or more commonly known as the Airport Access Road) would experience a slight detour overnights beginning the week of May 10.

**This detour has been rescheduled to begin during the last week of May.** Details will be released as the dates draw near.
