Important Lane Closures May 15 - 22, 2010

Multiple Lane Closings along Route 7 from Route 123 to Dulles Toll Road, May 15-21, in Preparation for Major Lane Shift in Late May

Drivers should expect multiple lane closings beginning May 15 all along the one-mile stretch of Route 7 from Route 123 west to the Dulles Toll Road as Dulles Corridor Metrorail crews prepare for significant traffic shifts later this month.

Beginning Saturday, May 15, closings include:

- The old service road areas near Marshalls Drive are closed and beginning Monday, May 17, through Friday, May 21, crews will be building a new lane in this area for eastbound Route 7 in preparation for the lane shift.
- The most left turn lane on Route 7 east to Spring Hill Road north will be closed multiple times at night all week long.
- The two eastbound lanes of Route 7 from Westwood Center Drive to Spring Hill Road will be closed all week during nighttime hours, and some lanes near Gosnell Road will be closed from time to time.

On or about May 24, the eastbound lanes of Route 7 between Gosnell Road and Route 123 will shift more than 40 feet south.

The number of lanes will not decrease but the path of the roadway must be moved to or beyond the old curb lines of service roads that have now been demolished in preparation for Dulles Rail construction.

Drivers using both eastbound and westbound Route 7 in this area should exercise extreme caution day and night and pay close attention to signs, flaggers and police. Remember that construction zones are not the place for cell phones.

Dulles Connector Road Westbound between Magarity Road and Route 123: Lane Closing Monday and Tuesday Nights, May 17-18

The left lane of westbound Dulles Connector Road (Route 267) will be closed Monday and Tuesday nights, May 17 and 18, from 9:30 p.m. to 5 a.m. for testing related to the truss that will be used to erect spans for aerial guideway construction in Tysons Corner.

For details of the aerial guideway construction plans, visit [here](#).

Frontage Road Closing Monday-Friday Nights

Beginning Monday, May 17, day and night work will begin on Frontage Road on Route 7 just north of Route 123. Flaggers will be on the scene daily to direct traffic during daytime work hours, Monday through Friday. At night, from midnight to 5 a.m. each week night, the road will be completely closed. ***(Detour: Route 7 westbound, to right turn on Westpark Drive northbound, to right turn on Greensboro Drive, to right turn on Pinnacle Drive, to Frontage Road)***. A map of the detour can be found [here](#).

Nighttime Lane Closures on I-66

Several nighttime lane closures will take place on I-66 during the week while caisson work continues and lanes are shifted to provide a safe work environment in the median of I-66 and clear separation between work areas and I-66 travelers.
