## **Nighttime Overhead Steel Work to Cause Short Closures of Bus Lane On-Ramp to Dulles Connector Road Nov. 3**

Short, intermittent closures of the on-ramp from the bus turn-around area at the West Falls Church Station will take place Wednesday night, Nov. 3, between midnight and 5 a.m. because of Dulles Corridor Metrorail construction.

The closing take place after bus operations close, but drivers in this area may be distracted by the overhead construction work that will be taking place and are urged to be alert.

Flaggers will stop traffic coming from the bus turnaround for approximately 10-15 minutes when steel spans are moved over the road. Once the spans are placed and secured, the flaggers will re-open the lane.

It is not expected to impact any traffic except for any vehicles and other personnel who may need to leave the bus area. Motorists should stay alert and be prepared for these construction activities.

If you have any construction-related emergencies, please call the Dulles Corridor Metrorail Project Hotline at 877-585-6789.

For information about the project, please visit our project website at [www.dullesmetro.com](http://www.dullesmetro.com) or call 703-572-0506.
