Nighttime Overhead Steel Work to Cause Short Closures of Bus Lane On-Ramp to Dulles Connector Road Oct. 10

There will be short, intermittent closures of the on-ramp from the bus turnaround area to the Dulles Connector Road at the West Falls Church Metro Station overnight Sunday, Oct. 10 between midnight and 5 a.m., after bus operations there close.

Flaggers will stop traffic coming from the bus turnaround for approximately 10-15 minutes when Dulles Corridor Metrorail crews place steel spans over the road. Once the spans are placed and secured, the flaggers will re-open the lane.

This work is not expected to impact any traffic except for vehicles and other personnel who may be leaving the bus area.

Motorists should stay alert and be prepared for these construction activities.

If you have any construction-related emergencies, please call the Dulles Corridor Metrorail Project Hotline at 877-585-6789.

For further information about the project, please visit our project website at www.dullesmetro.com or call 703-572-0506.
