## Important Lane Closures, March 13-19, 2011

### REMINDER: Overnight Lane Closures on Northbound I-495 Expected to Continue Next Week

Construction of the aerial bridges that will carry tracks for the Dulles Corridor Metrorail Project over the Capital Beltway (I-495) at Route 123 will continue Sunday, March 13 through Friday, March 18. This work requires closing the three right lanes of northbound I-495 overnights from 11 p.m. to 5 a.m. In addition, the exit ramps from northbound I-495 to both northbound and southbound Route 123 will be closed.

In preparation for these closings, crews will begin to shut down some lanes as early as 9:30 p.m., as follows:

- 9:30 p.m. to 10 p.m. – Crews will begin tapering for the closing of the right lane on I-495 North about a half mile before the Route 7 exit. The exit ramps at Route 7 will not be affected by rail project construction closings.
- 10:30 p.m. – Crews will begin to close the second right lane near the Route 7 bridge, and the third lane will close prior to the Route 123 interchange. **The ramps to/from Route 123 also will close at this time.**
- All lanes and exits to Route 123 will be reopened to thru traffic by 5 a.m.

These closings will continue nightly Sundays through Fridays for the next several weeks. However, closings will be cancelled when work is being done that does not impact the affected lanes.

Northbound thru traffic will be allowed to use the single open lane. The three lanes will re-open north of the work area. Drivers should expect significant delays each night.

The closings of the exit ramps to northbound and southbound Route 123 will result in the following detour: **To access Route 123 from the beltway, drivers will be directed to detour by continuing on the beltway north, exiting Georgetown Pike (Route 193), turning around at Georgetown Pike, then entering the southbound beltway. Drivers will be able to exit to both directions of Route 123 from the southbound beltway.**

Police will be onsite. All work is weather-dependent and subject to change.

**Ramp from Eastbound Dulles Toll Road (Route 267) to Eastbound Leesburg Pike (Route 7) Scheduled to Close Overnights Next Week; Use Spring Hill as Detour**

The exit ramp from the eastbound Dulles Toll Road (Route 267) to eastbound Leesburg Pike (Route 7) is scheduled to close between 9:30 p.m. and 5 a.m. Monday, March 14 through Saturday, March 19, to support lane shifts on Route 7.

To access Leesburg Pike (Route 7), drivers will be instructed to detour by continuing eastbound on the Toll Road and exiting at Spring Hill Road. Take a hard right at the first intersection to remain to Spring Hill Road, which eventually leads to Leesburg Pike (Route 7).

Police will be onsite for motorist safety.

**Flagging Operation To Close Lane on Old Ox Road (Route 606)**

Crews will be working on drainage cleanup along eastbound Old Ox Road (Route 606) between Horsepen Pond and Mercure Circle, require flaggers to reduce traffic to one lane Monday, March 14 through Thursday, March 17, from 9:30 a.m. to 3:30 p.m. and Friday, March 18, from 9:30 a.m. to noon.

Drivers should use extreme caution and pay attention to the flaggers directing traffic next week.
