

STAY SAFE + BE WELL

Effective tomorrow (Wednesday, August 18), individuals on our jobsites and in our offices must wear a face covering when inside and interacting with others, regardless of vaccination status. *(On our jobsites, "inside" includes any portion of the project where you cannot look up and see the sky, regardless of whether the façade of the building is installed.)* While it is encouraged, you are not required to wear a mask while seated at your desk and not interacting with others, unless you are subject to local mandates that require face coverings to be worn in this instance.

We will continue to monitor guidance and make adjustments to our policy as necessary. If you have questions about requirements for your work location, please contact your manager or senior executive.

Stay Safe + Be Well,

Chip
