

# Platform Improvement Project Summer 2020

## PROJECT OVERVIEW

Metro's Platform Improvement Project is dedicated to making platforms safer and more accessible for all customers. As part of this multiyear project, Metro is rebuilding deteriorating platforms at 20 outdoor Metrorail stations and upgrading stations with new customer experience improvements. Phase I of the project was completed in 2019, with six stations successfully reconstructed on the Blue and Yellow lines in Virginia.

## STATION CLOSURES

**All Orange and Silver line stations west of Ballston-MU will be closed beginning Saturday, May 23.**

Metro will combine this summer's work demolishing and reconstructing platforms at the four Orange Line stations with a separate project on the Silver Line to connect Metrorail to the new "phase II" stations, which are being constructed by the Metropolitan Washington Airports Authority (MWAA).

## RAIL SERVICE INFORMATION

- Orange Line service between Ballston-MU and New Carrollton only.
- Silver Line service will be temporarily suspended.
- Service elsewhere on the system will continue to operate at reduced service levels during the COVID-19 public health emergency until further notice.

## Free Shuttle Service

Effective: Saturday, May 23, 2020

### Orange Line Local

Service between **Vienna, Dunn Loring, West Falls Church & Ballston-MU**

### Orange Line Express

Direct service between **Vienna & Ballston-MU** (no intermediate stops)

### Silver Line Local

Service between **Wiehle-Reston East, Spring Hill, Tysons Corner & Ballston-MU**

ADA shuttles provided upon request between impacted stations

## METRO'S CAPITAL PROGRAM

Metro is investing in system safety, reliability and the region's economy through its 10-year, \$15 billion capital program. For the first time in Metro's history, the capital program is bolstered by dedicated funding from Maryland, Virginia and the District of Columbia to improve the customer experience and keep the region's infrastructure in a state

of good repair. The Platform Improvement Project is one of many initiatives funded by the capital program, along with efforts that invest in railcars, buses, stations, tracks, tunnels, bridges, signals, communications, facilities and passenger information systems.
